SKILLS

HTML | CSS | JavaScript | React.js | Bootstrap | MERN Stack | Tailwind CSS | Responsive Design | React Router | Git | MongoDB | Functional Component | Node.js | Firebase | GitHub

PROJECTS

❖ **BLOG POST WEBAPPLICATION ([GitHub](#) | [Deploy](#))**
- Developed a social media application using React and Firebase allowing users to create, delete, update, and interact with posts.
- Integrated user authentication and real-time data storage with Firebase for scalability and high-performance data retrieval.
- Ensured responsive design for both mobile and desktop users, incorporating features such as likes to enhance user experience.
- Utilized React for dynamic post rendering and state management.
- **Tech Stack:** React, Firebase, React Router, Firebase Hosting, HTML, CSS, JavaScript

❖ **MJRENTIFY ([GitHub](#) | [Deploy](#))**
- Created a web application to streamline the rental property search process.
- Utilized React for a dynamic front-end experience and Firebase for real-time database and authentication.
- Enabled users to filter properties based on location, roomSize , and based on rent cost.
- Integrated Firestore for data storage and React Router for seamless navigation.
- Enhanced user experience by providing detailed property listings and facilitating easy communication between renters and property owners.
- **Tech Stack:** React, Firebase, React Router, Firebase Hosting HTML, CSS, JavaScript

❖ **MERN Stack CRUD Operation Project ([GitHub](#) | [Deploy](#))**
- Developed a full-stack web application using the MERN stack (MongoDB, Express.js, React, Node.js) to perform CRUD operations.
- Implemented user authentication and authorization to ensure secure access to the application.
- Designed and built RESTful APIs with Express.js and Node.js to handle server-side logic and database interactions.
- Created a responsive front-end with React, enabling users to create, read, update, and delete records seamlessly.
- Integrated MongoDB for efficient data storage and retrieval, ensuring high performance and scalability.
- **Tech Stack:** MongoDB, Express.js, React, Node.js, HTML, CSS, JavaScript

EDUCATION

➤ **Certification program in Java Full Stack Web Development**   **2023**
Skill-lync (Remote)

➤ **B.Tech in Computer Science & Technology**   **2019-2022**
Department of Technology, Kolhapur (CGPA- 8.2/10)

➤ **Diploma in Computer Engineering**   **2016-2019**
Dr. Bapuji Salunkhe Institute of Engineering (71.94%)

➤ **10th MAHARASHTRA STATE BOARD**   **2016**
S.K. Pant Walwalkar High-school, Kolhapur (81.20%)

CERTIFICATION

- **The Complete Front-End Development - 2.0** (Skill-Lync)   **April 2023**
- **Practical JavaScript** (Skill-Lync)   **July 2023**
- **React.js** (Skill-Lync)   **July 2023**
- **Web Application Development using JavaScript** (Skill-Lync)   **Octomber 2023**
- **Java** (Skill-Lync)   **February2023**
- **Web Development** (Sololearn)   **February,2024**

ACADEMIC PROJECT

❖ **City Ride**
- o Description: Innovatively designed to enhance the public transportation experience in Kolhapur.
- o Components: Consists of an Android user application and an admin web module.
- o Features: Streamlined the city's bus transport system, delivering precise bus information to users.
- o Technologies: Showcases seamless integration of Android and web technologies.

Extracurricular Activities

- ✓ Participated in National level Online Project Competition "LOGICA" hosted by JSPM RSCOE ACM during B.Tech 2023.
- ✓ Volunteered in NSS Camp organized by College during B.Tech 2023.
- ✓ Contributed as a Volunteer at National Level Paper Presentation & Quiz Competition during Diploma 2018.
